

## – Customised Solutions in Chains & Transmission Elements

+ + + + +

YUK helps customers developing their projects by offering quality bespoke solutions in conveyor and roller chains, and transmission elements. Since 1964, experience, dedication, development and investment have been the cornerstones of our company. More recently, YUK has been involved in a deep change process, struggling to step up a factory and facilities that meet the expectations of our clients.

#### Key-figures:

- Factory adaptation to Industry 4.0.
- 14.000 sqm fully automated warehouse (Easy WMS Mecalux System synchronized with our ERP on real time).
- More than 15.000 references representing over 7 million € stocks.
- Specifically built-in warehouse for raw material storage, in times when supplies may be at stake.
- New offices, showroom for customers and training dedicated area for employees.

#### Digitalisation:

- B2B e-commerce platform with real stock: in English/French/Spanish.
- Implantation of a new CRM software that will help us put the customer at the very centre of the company.
- Customer and employee training on Teams.

- Specific training for LinkedIn Sales & development of LinkedIn Marketing.

#### Environment protection committed company:

- Increase of our solar power supply to reduce the use of environmentally harmful energy.
- Digitalisation process to reduce the use of paper and printing machines and contribute to the safeguard of the environment (Docuware-Project)
- Facilities for our employees to work in remote mode, to help preserve them from Covid-19 and reduce the impact on the environment, caused by systematic comings and goings from home to the office.

*YUK has a strong commitment to become a major player in the European market. You can contact YUK anytime at [export@yuk.es](mailto:export@yuk.es) or visit the website on [www.yuk.es/en](http://www.yuk.es/en) for more information.*
